Dear Friends:

This page of our catalog is designed to tell you a little about ourselves. Peter Bohlender started Spring Hill with the smallest shoe-string beginnings in 1849 instead of going West for gold. Our father and uncle conducted the affairs of the company, growing and selling mostly wholesale.

Howard and I took over complete ownership and managements in 1936 and decided to specialize in growing and selling direct. We were pioneers in supermarkets, self-service nursery sales and our sales by mail the easy and convenient way, continues to expand each year.

With the assistance of an excellent and experienced staff of employees, hard work, latest techniques, finest new equipment and fertile farms we are producing one of the largest acreages of high quality nursery stock in America here at Tippi City and selling direct to consumer at astonishing savings. Shop this catalog, compare prices, sizes and quality. We do not make miraculous claims and deals but try to give the best values possible. May we have the privilege to serve you?

Tom and Howard Kyle

OUR GUARANTEE TO YOU

We guarantee high quality stock, exactly as represented, government inspected, true to name and to arrive safely in healthy, live growing condition. Any plants that reach you otherwise will be replaced free, if notified 10 days after delivery of order.

REPLACEMENTS—We guarantee our plants to grow, bloom and produce if given intelligent handling, proper planting and reasonable care. Weather conditions, carelessness and lack of

experience by the planter are conditions beyond our control; regardless of this, Spring Hill will replace any plants that fail to grow at half the original purchase price if notice is made six months after delivery of your order. Please enter complaints immediately and be sure to return your original order blank or sales slip to us or adjustment cannot be made. It is mutually agreed that our liability cannot be greater than purchase price. **GUARANTEED SATISFACTION.**

IMPORTANT INFORMATION FOR CUSTOMERS WHEN ORDERING

ORDERS ACKNOWLEDGED

As soon as your order is received we send an acknowledgement (mailed first class) stating amount of your order, when received and most important—YOUR ORDER NUMBER. Keep this acknowledgement we send you with your assigned order number. We will be unable to locate your order without this number. We must know this number if you wish us to refer to your order.

HOW TO ORDER

Use order blanks enclosed. List the variety of plants you want, state catalog number, size and price. Advise DATE you wish your order shipped.

TERMS AND REMITTANCE

All orders should be accompanied with remittance. Please mail Post Office money order, Express money order or personal check. Spring Hill cannot be responsible for currency, stamps, war stamps or cash unless sent by registered mail (wrap coins securely). Sorry, C.O.D.

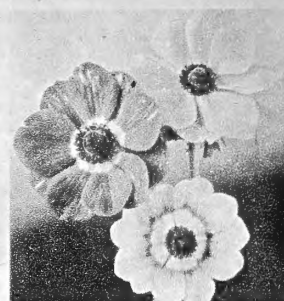

Thousands of people visit the nursery each spring and fall; you are always welcome.

orders NOT accepted. Please add 35c postage and packing charge if your order is less than \$3.50 (we do not pay postage). See transportation notice below.

PLEASE ADD POSTAGE

Transportation Notice: To supply strong, heavy plants at lowest prices WE DO NOT PAY SHIPPING CHARGES. Please add 35c minimum packing and postage charge on orders less than \$3.50 and 10% for larger orders (for example, for \$6.60 order send 66c). Most orders will deliver for 10%. Should transportation exceed 10%, or you do not include postage, we will bill you for the postage at time of shipment or ship express collect. Packages exceeding 100 inches in length and greatest girth combined cannot be shipped parcel post. When we ship express we give you full credit for money you have sent. \$2.07 is the minimum express charge, therefore several trees go as cheap as one. We do not prune trees so they can be shipped parcel post unless you instruct us to do so. West of Rocky Mts. add 20% for packing and postage.

(5 Kinds of Apples Grafted on One Tree)

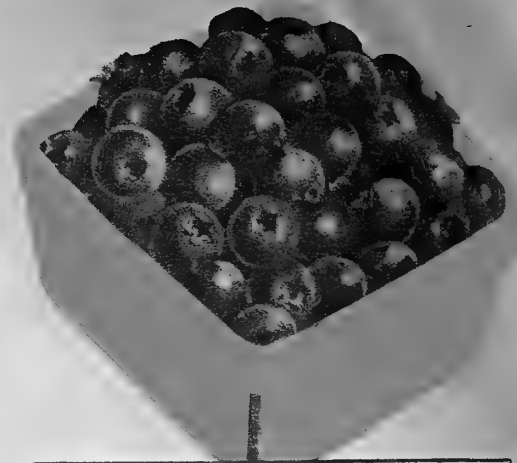

17F27—Beautiful and valuable medium size lawn or garden trees. We guarantee an excellent assortment of 2 Early; 1 Mid-season; 2 Fall bearing varieties. Five different apples growing and ripening from spring to fall on the same tree. All you need is space for one tree. Big, 4 to 5 ft. size, \$2.95 each. 5 to 7 ft., \$3.95 each.

HUGE HYBRID BLUEBERRIES

These big, luscious, marble size U. S. Dept. of Agri. hybrids are so good for eating fresh or delicious in pies, preserves and canned or frozen. The attractive shrub-like plants bear large clusters of mild, sweet fruit, easy to pick. They require no spraying and it is easy to grow blueberries if you make the soil acid and mulch heavy with peat, sawdust, oak leaves or any organic matter. A heavy mulch is better than cultivation. If soil is sweet or alkaline mix thoroughly with aluminum sulphate. We send sufficient aluminum sulphate with each

order for planting 1st year. Plant no less than two varieties for pollination. The plants grow for a lifetime and have handsome glossy foliage that changes red, gold and orange in fall. Beautiful pink-tinged white fragrant blooms on compact bushy plants make blueberries ideal for hedges or landscaping your yard. Hardy throughout U. S. A. You will get more and larger fruit if the old canes are pruned so the plants keep new shoots coming. On good blueberry land a gross sales of \$1,200 per acre selling wholesale is the average income.

WEYMOUTH—18F1—Improved early ripening hybrid.

STANLEY—18F2—Excellent mid-season ripening hybrid.

PEMBERTON—18F3—Recommended, late ripening hybrid.

Prices of Blueberry varieties listed and numbered above. State name, quantity, catalog number, size and price. Plant 2 or more a few feet apart for pollination to insure good fruiting.

ROSA MULTIFLORA The Miracle Living Fence

27H11—Protect and beautify your property. A cheap practical fence that grows so dense no person or animal can get through.

The plants grow 6 to 8 ft. tall and 5 to 7 ft. wide, are tough and fast growing. Covered with a multitude of white flowers in spring; loaded with attractive red fruit in fall and winter which provides food for wild life.

Recommended by U. S. Soil Conservation service for livestock farm fence and for factories, parks, estates, institutions, large lawns, etc., that wish to keep animals and trespassers off their property. Present recommendation by U.S.D.A. are to plant 1 ft. apart in a single row for stock tight fence. Ornamental hedges can be planted 18 inches apart and kept

trimmed to desired height. Trial fences planted throughout east, west and south have proven successful. North of Milwaukee there is danger of winter injury. The general use of rosa multiflora is just beginning but its value is proven for cheap fence, game management, property protection, windbreaks and erosion control to soil and crops, will last for generations.

PATENTED ROSES

Patented roses are new varieties, with outstanding merit, that have been granted patent rights. This gives the originator protection and encourages him to continue his research. The six patented roses listed below are all fully double blooming, hybrid tea roses that will bloom profusely and continuously in your garden from late May to late fall.

CHARLOTTE ARMSTRONG (Patent 455)
29R1—(AAR's Award) Magnificent cerise-red. Considered one of the finest roses in existence. \$2.25 each; 3 for \$6.00.

FALL ROSE PLANTING INSTRUCTIONS

Plant roses this fall for earlier and more abundant blooms. All roses offered are large, 2 yr. Northern Ohio field grown plants. All are everblooming and will flower continuously for you from next May until early winter. Follow simple directions for healthy plants and abundance of blooms. Plant below the bud or where branches start. This is usually 2 inches deeper than soil marks where they have grown in the nursery.

After planting cut off top of rose plants 10 to 15 inches above soil. Then mound earth 10 to 18 inches high (as shown in picture). Cover with leaves, straw or coarse material to keep winter rains from washing soil. Remove or level off mound of earth next spring when new growth starts. Roses cared for in above manner give greatest satisfaction and from our experience you can produce more prize winning blooms. Plant roses in beds 2 ft. apart in alternate rows.
